

August 2025 - 14.39 Miles

Highlands Loop, Roper Park, Superior Street Trails

In August, we're covering three connected trails in northwest Lincoln: the **Highlands Loop**, the **Roper Park Loop**, and the **Superior Street Trail**. Together, they create a scenic route that blends neighborhoods, green space, and city infrastructure. Expect a few hills, quiet parks, and a couple of underpasses to help you safely navigate busy streets.

Trail Instructions:

Highlands Loop – 7.99 miles

Starting Point:

Start and end at NW 1st Street & Technology Drive. You can park across from Cabela's/Capital One offices or at the Walgreens on N. 14th Street. From here, you'll begin on the Superior Street Trail before turning onto the Highlands Trail.

Trail Path:

- From Superior & Technology Drive, take the Highlands Trail and follow signage.
- When you reach the fork, go left to stay on trail.
- At the next sign, go right toward W. Fletcher Avenue.
- Turn right on W. Fletcher Ave., and stay on the left side of the street to rejoin the trail.
- In Fallbrook, take a left at the trail sign, then go right to cross at the green/blue street signs onto Stonybrook Street.
- Exit Fallbrook by turning right onto Alvo Road.
- At 14th & Humphrey, turn left on 14th, cross the road, and stay on the west side where the trail runs.
- Continue as 14th Street passes under Superior, then go left after the underpass to loop back up to the Superior Street Trail.
- Follow the Superior Street Trail west, back to the sign where you began.

August 2025 - 14.39 Miles

Highlands Loop, Roper Park, Superior Street Trails

Trail Instructions:

Roper Park Trail – 1.63 miles

Starting Point:

Start at the west parking lot of Roper Park or park at Calvary Community Church and walk a short distance to the trail sign where the Roper Park Trail connects to the Superior Street Trail.

Trail Path:

This is a large, paved loop around Roper Park. If starting at the west lot, look for the trail sign near the parking area.

- The loop includes a big hill early on.
- There's a small interior loop in the middle of the park if you want to explore more.
- We mapped the full outer loop to capture the full trail around the park.

Superior Street Trail – 4.34 miles

Starting Point:

Begin at the east end of the trail, where Superior, Havelock, and Cornhusker Highway intersect. There's a trail sign at the southwest corner of the intersection, and parking is available at Casey's General Store nearby.

Trail Path:

- Head west along Superior Street. The trail is easy to follow, though it does cross several major intersections.
- Be sure to use the underpass at 14th Street to avoid traffic.
- If you're traveling east to west, be prepared for more elevation gain.

End Point:

The trail ends at Technology Drive, where it meets the Highlands Loop Trail. Parking is available across from Cabela's or at Calvary Community Church about 0.25 miles away.
