

AUGUST TRAIL PLAN

Highlands Loop, Roper Park Loop, Superior Street Trail

Highlands Large Loop
7.99 miles

The big loop stops and starts at NW 1st Street and Technology Dr. It weaves through Fallbrook and connects back to Superior Street trail at N. 14th Street. It connects Highlands to Fallbrook and back to Superior Street. It is a hilly route and with lots of great scenery.

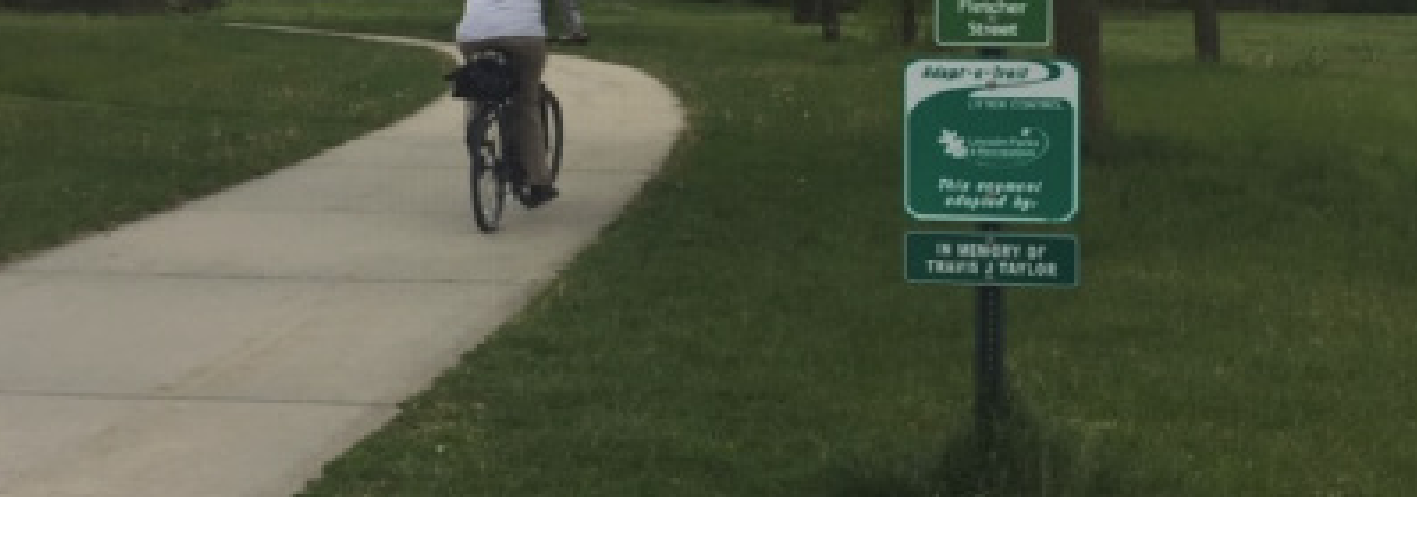

Park either across the street from Cabela's/Capital One offices or at the Walgreen's on N. 14th Street.

START

At Superior Street & Technology Drive, this trail joins the Highland Trail.

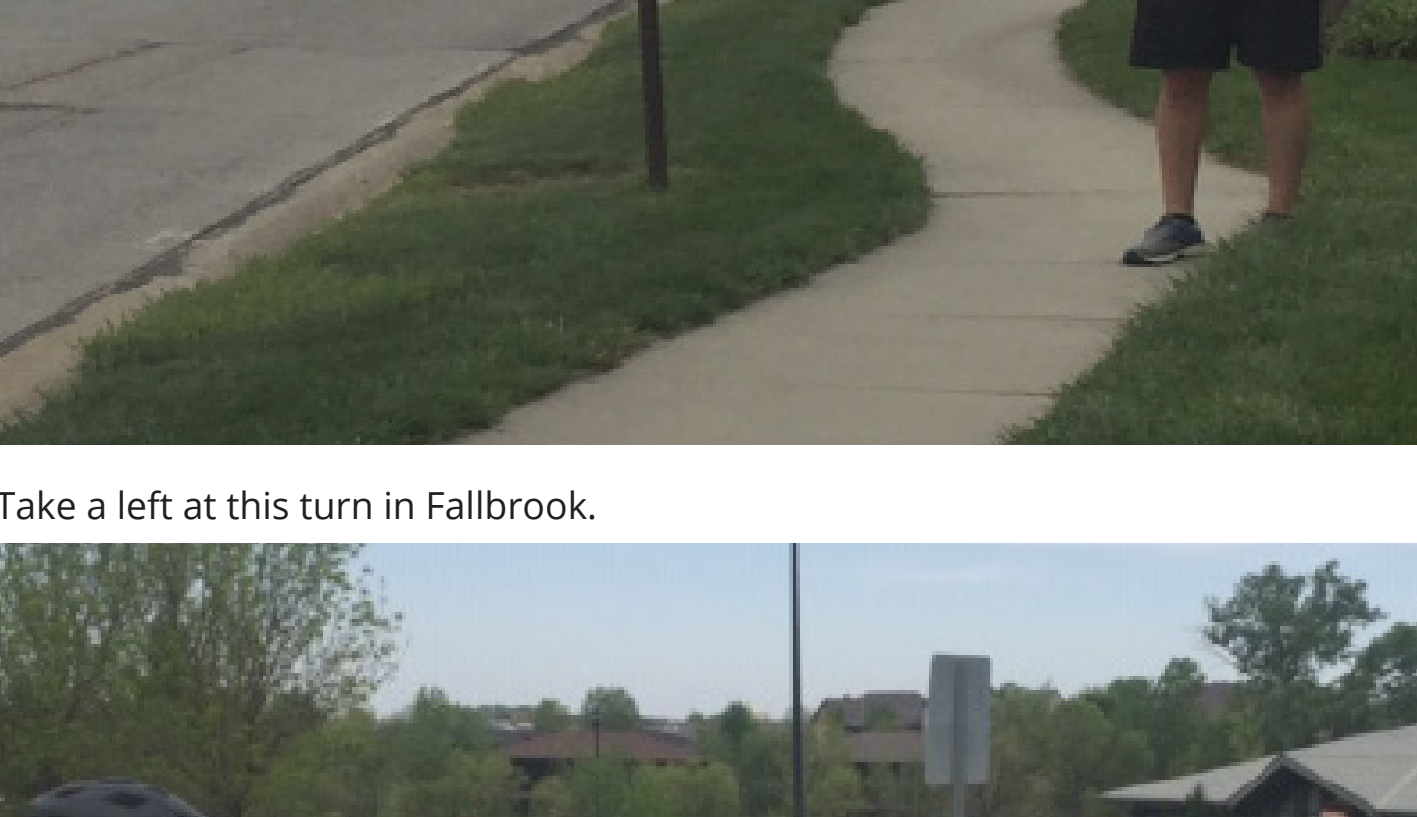

This is just after you leave. Go left at the sign.

Go right. This sign will take you to W. Fletcher Avenue.

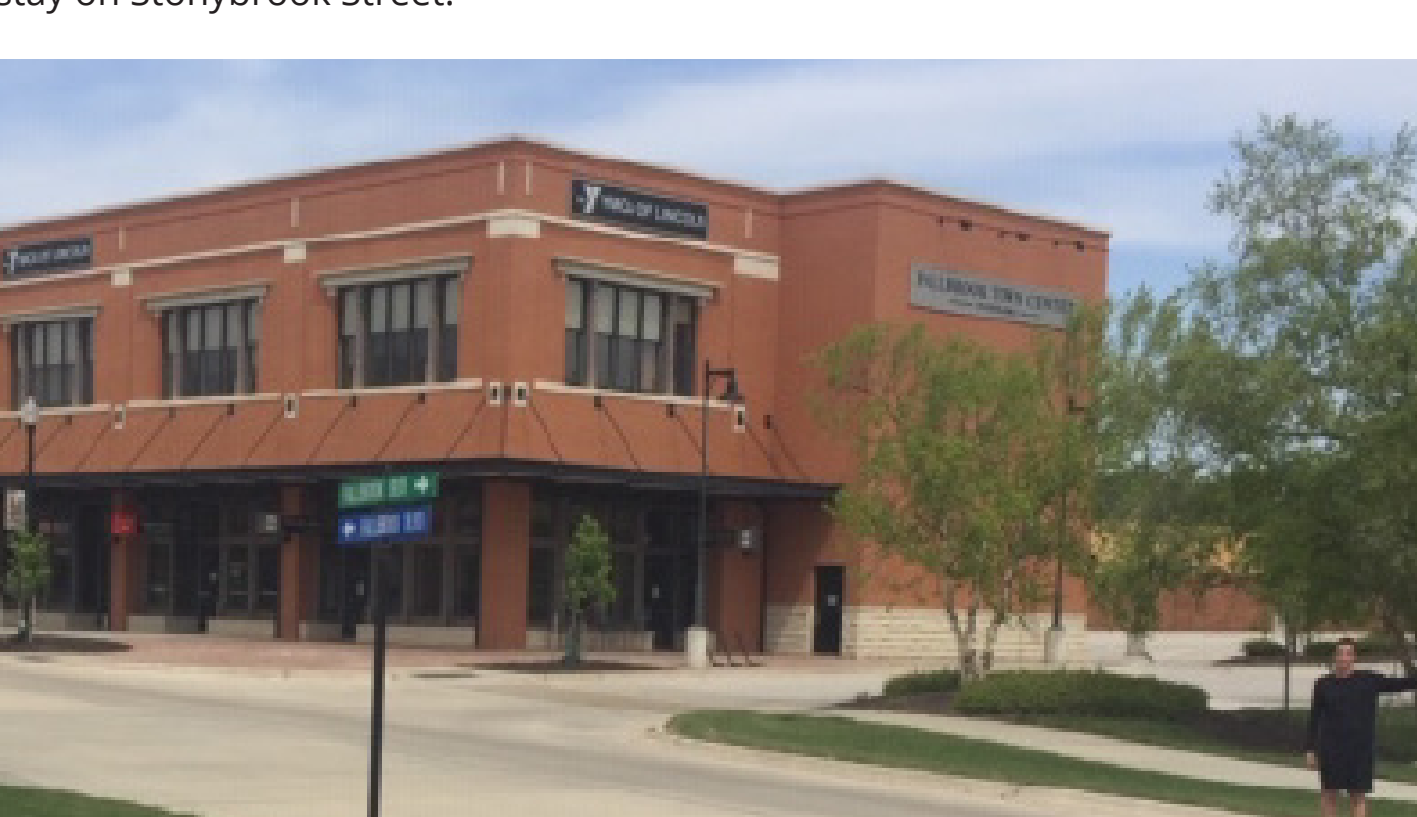

Turn right until you see the W. Fletcher Ave sign.

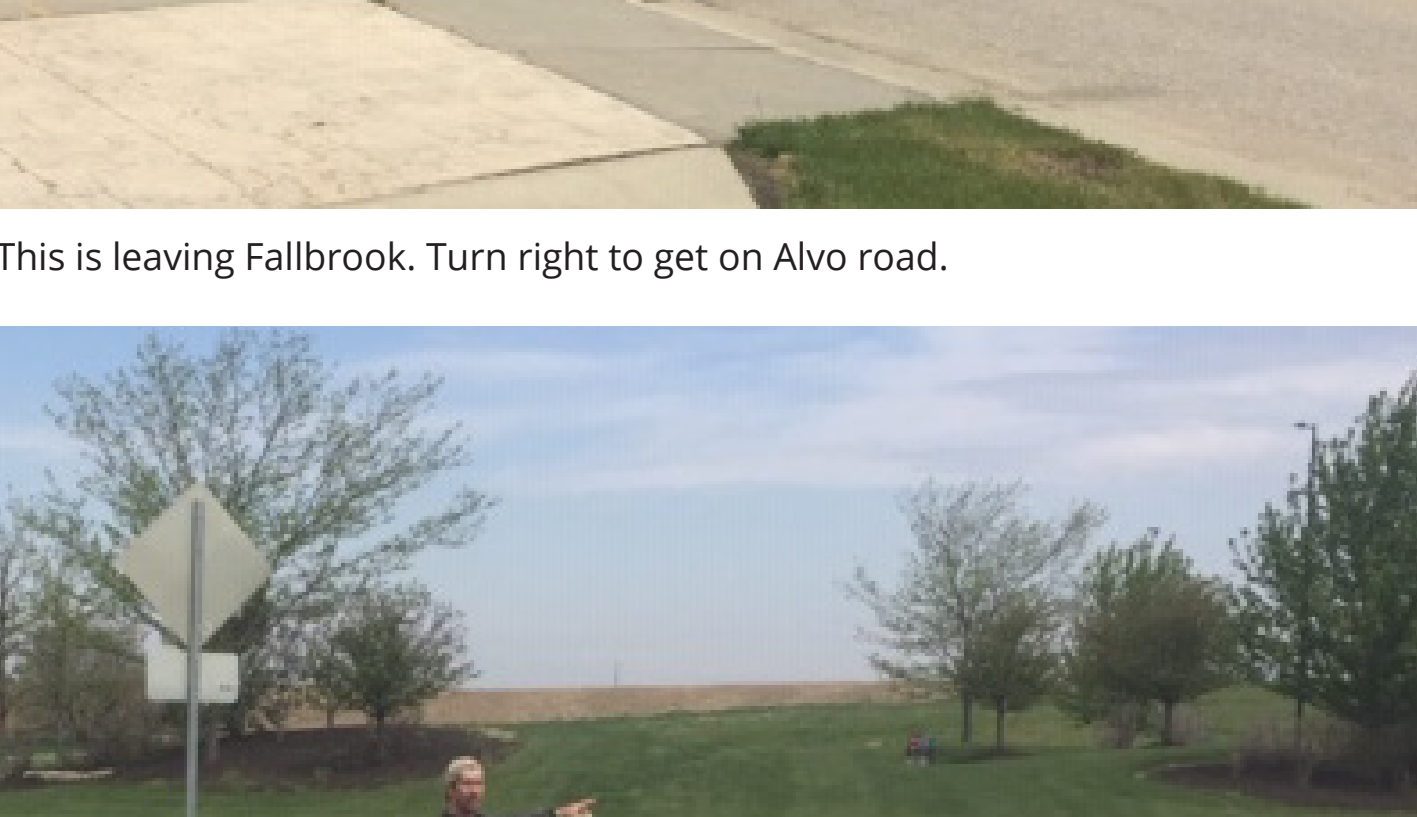

Turn left on W. Fletcher. Stay on the left side of the street to meet up with the trail.

Take a left at this turn in Fallbrook.

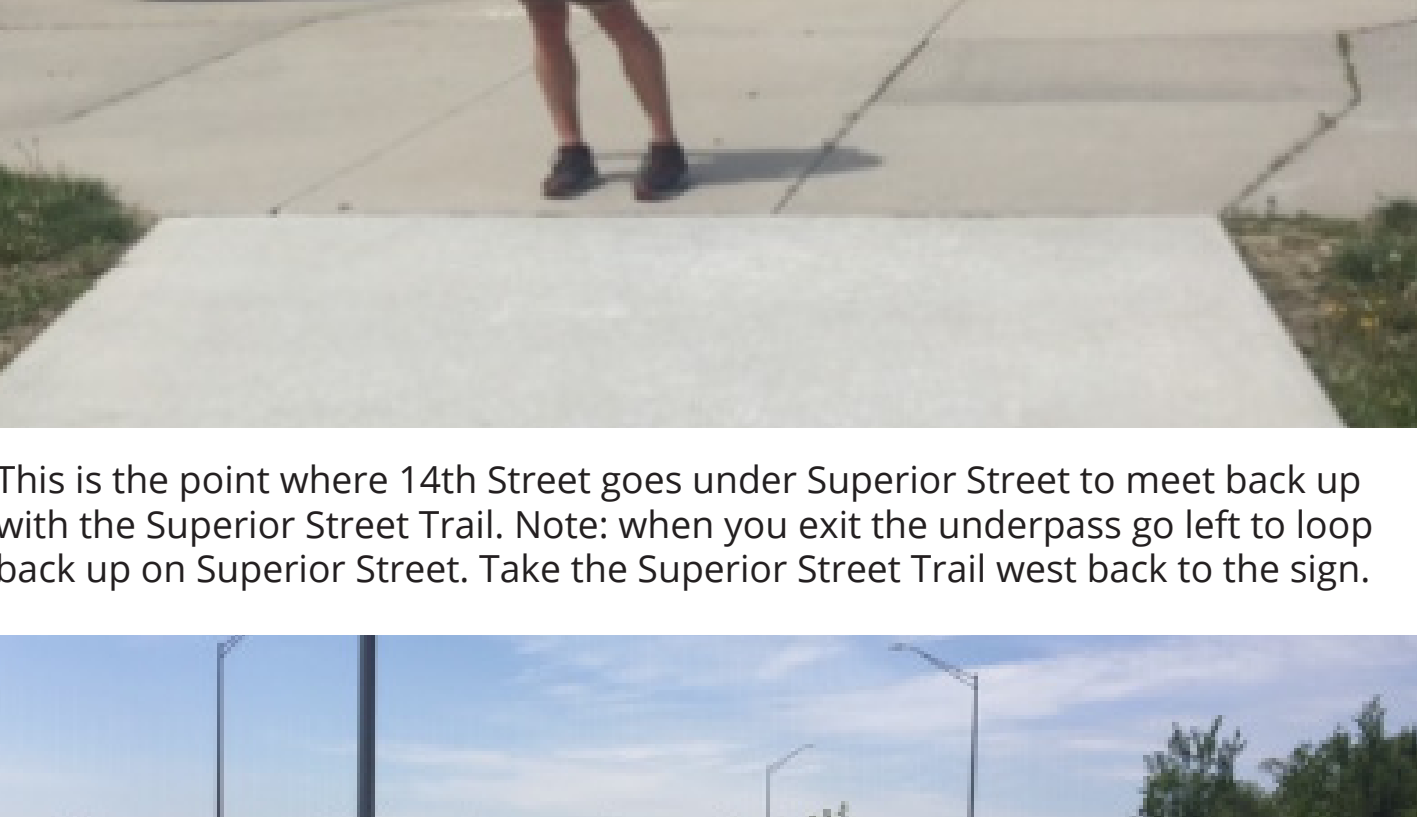

Go right. Cross at the crosswalk at the green/blue street signs to loop around to stay on Stonybrook Street.

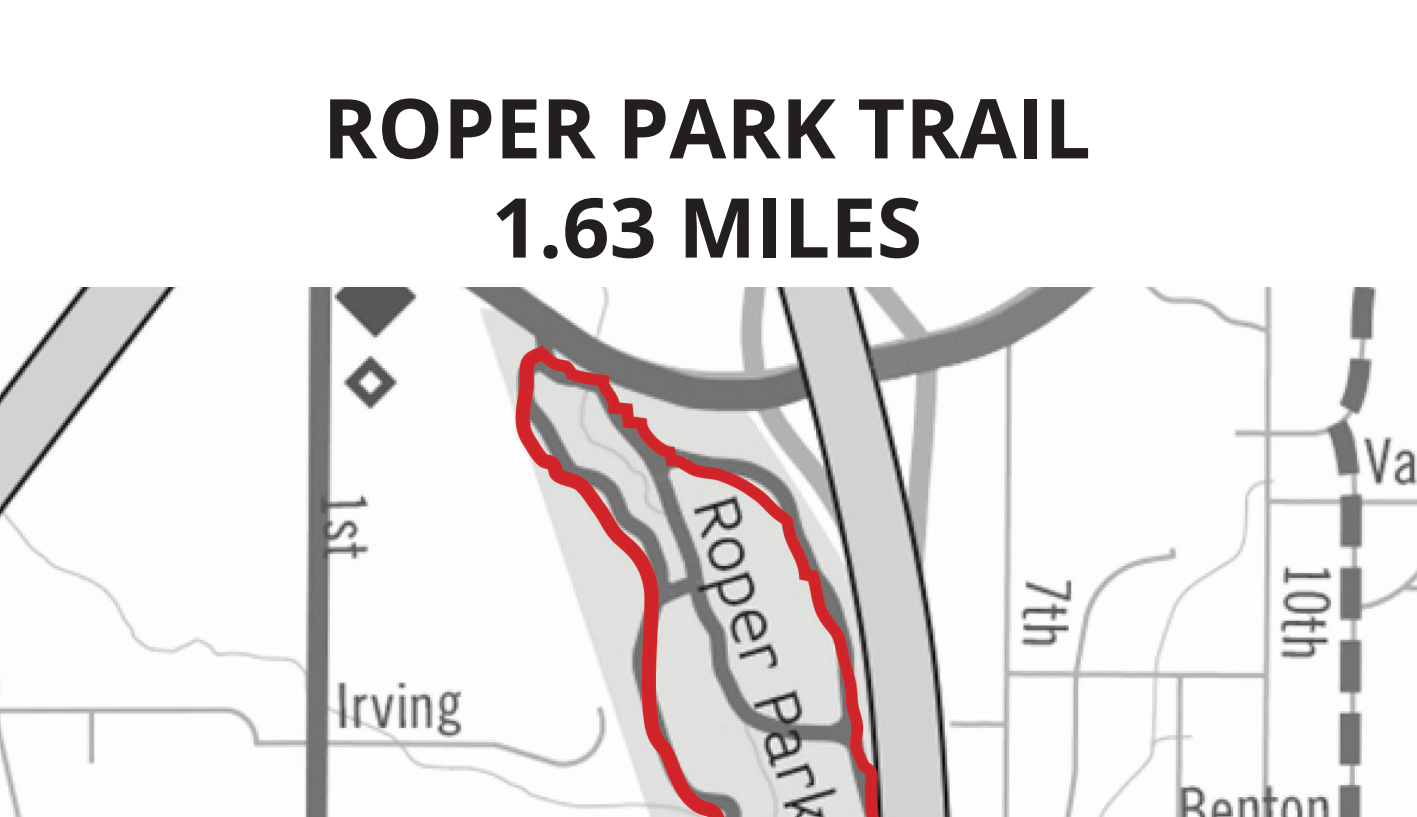

This is leaving Fallbrook. Turn right to get on Alvo road.

At 14th Street & Humphrey Street, turn left on 14th Street. Make sure to cross the street, as the trail is on the west side of the street.

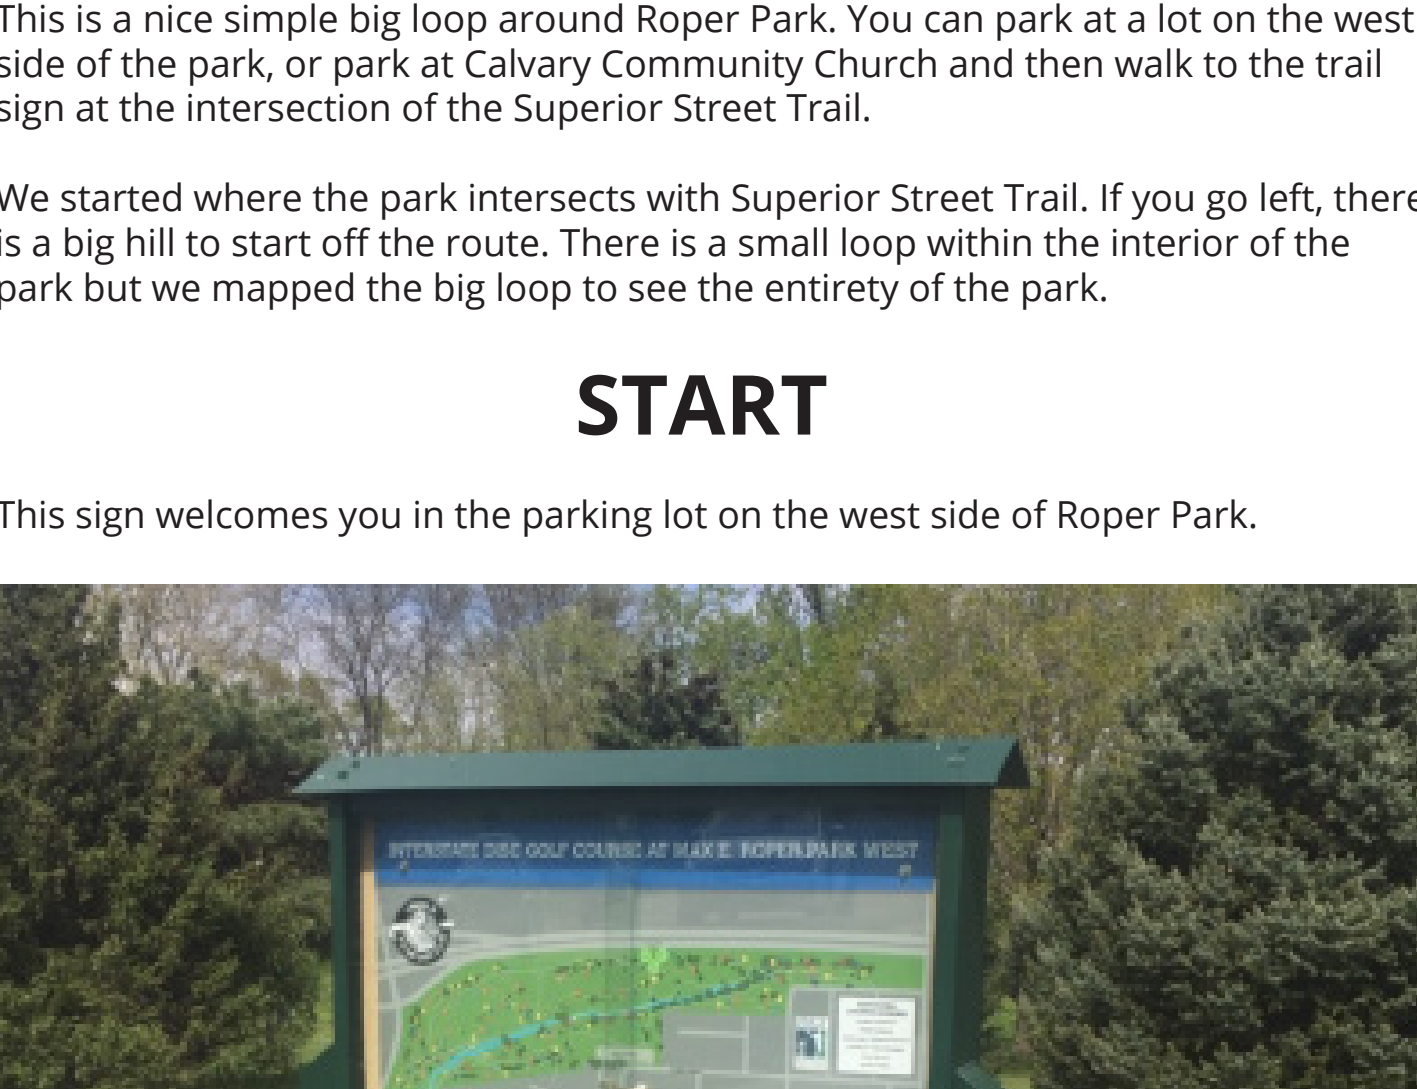

This is the point where 14th Street goes under Superior Street to meet back up with the Superior Street Trail. Note: when you exit the underpass go left to loop back up on Superior Street. Take the Superior Street Trail west back to the sign.

END

ROPER PARK TRAIL

1.63 MILES

This is a nice simple big loop around Roper Park. You can park at a lot on the west side of the park, or park at Calvary Community Church and then walk to the trail sign at the intersection of the Superior Street Trail.

We started where the park intersects with Superior Street Trail. If you go left, there is a big hill to start off the route. There is a small loop within the interior of the park but we mapped the big loop to see the entirety of the park.

START

This sign welcomes you in the parking lot on the west side of Roper Park.

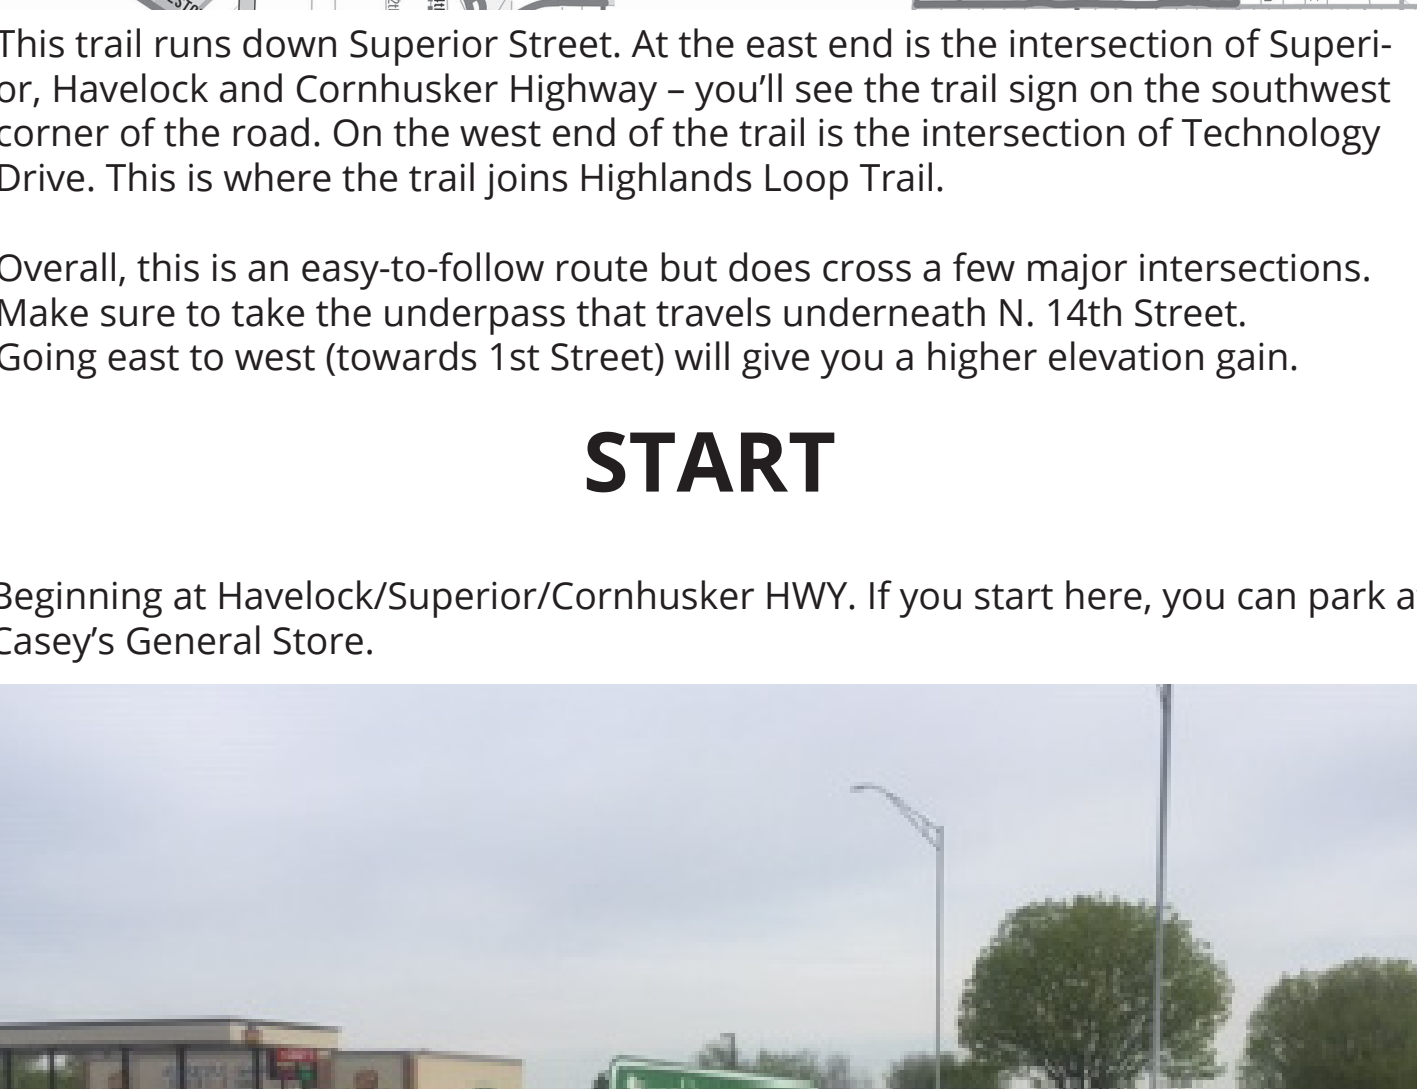

The Roper Park Trail splits right off of the Superior Street Trail.

END

SUPERIOR STREET TRAIL

4.34 MILES

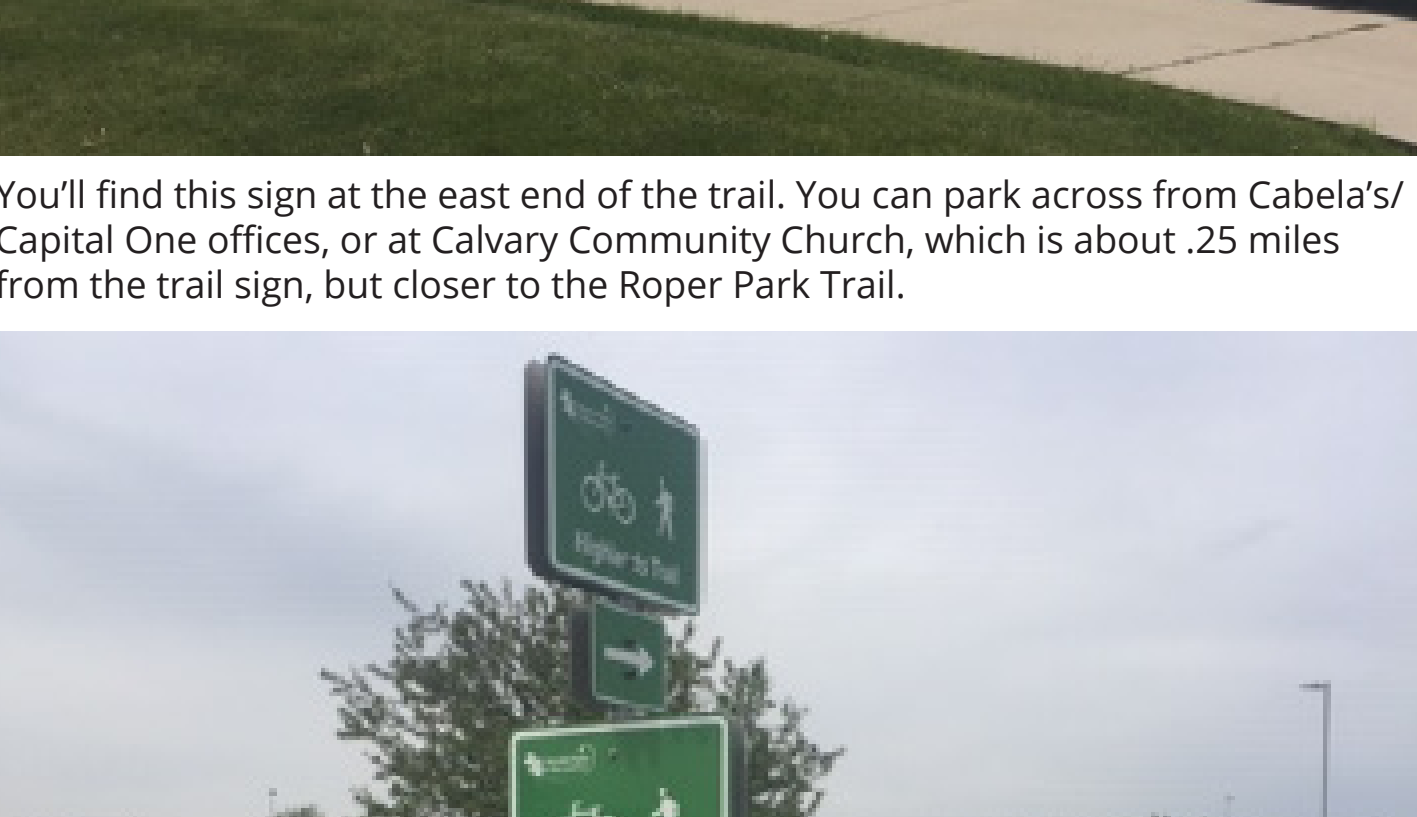

This trail runs down Superior Street. At the east end is the intersection of Superior, Havelock and Cornhusker Highway – you'll see the trail sign on the southwest corner of the road. On the west end of the trail is the intersection of Technology Drive. This is where the trail joins Highlands Loop Trail.

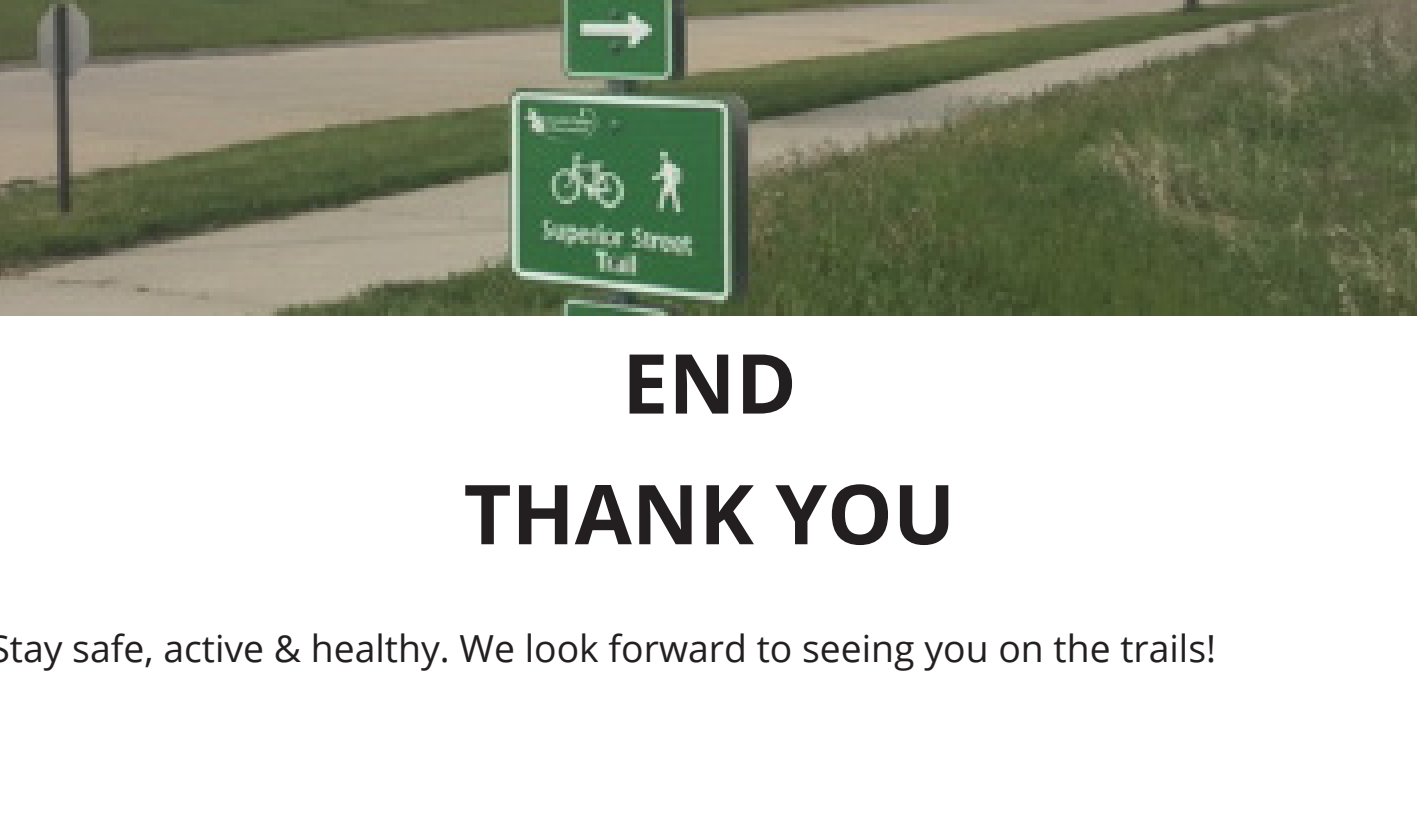

Overall, this is an easy-to-follow route but does cross a few major intersections. Make sure to take the underpass that travels underneath N. 14th Street. Going east to west (towards 1st Street) will give you a higher elevation gain.

START

Beginning at Havelock/Superior/Cornhusker HWY. If you start here, you can park at Casey's General Store.

The underpass at 14th Street

END

THANK YOU

Stay safe, active & healthy. We look forward to seeing you on the trails!
